THURSDAY, SEPT. 17, 1896

THE Colorado Republicans evidently differ with the rest of their party. The latter say Bryan is for 'free silver'; they say he is a bi-metallist.

EDITOR BAKER wants to know what we get of the \$300 paid to the coal oil inspector Shipp in this Valley. What we get is the privilege of paying more for inferior oil.

THURSDAY last each of our noble legislators met at the State House in Nashville and immediately adjourned. Anything to kill time and jerk the cash out of the State Treasury.

Gov. Turney has had luck, whenever he goes to Nashville. The Nashville brewery products were not made for his delicate constitution and he always has to go home to recuperate.

It is too bad that McKinley can't raise the enthusiasm that Bryan evokes, but it's all in the man, and McKinley's non-success in managing his own affairs is a big point against him.

Says President Wm. G. Raoul of the Mexican Central Railroad: 'Free silver is a blessing to any community or country and the United States will find this out sooner or later. I am as sure of that as that I live.'

Says the American is it not time to discipline Tom Baker, as he wants to put an income tax on the people of Tennessee, which is not in accord with his platform. Thomas is right. Make them ante up just as if they had it invested.

Criminal prosecution for Marion County, 1895, \$5,000. The State of Georgia criminal prosecution, 1895, \$10,000. It comes high, but we are bound to let the bosses have fat jobs.—South Pittsburg Republican.

THERE is an object lesson in the above.

THE Republicans of Colorado endorse resolutions for bi-metallism and protection 'as set forth in our national platforms previous to 1896, and as adhered to by Abraham Lincoln and the founders of the Republican party.' It also is pledged to support Bryan and Sewall and the St. Louis bolters are indorsed. This practically leaves no Republican party in Colorado, but does seem like a ticket drawn up to quit everybody.

### Mr. Byrum Reviewed.

EDITOR NEWS:

Mr. Byrum puts up a very lame excuse for not answering me. It is because I did not sign my name, but really I did not expect him to answer me. I considered my arguments then and I consider them now absolutely unanswerable. However, I can inform him why I did not sign my real name. It was because I felt ashamed of being guilty of noticing such stuff and nonsense. That is why I do not give my name now.

But it is very amusing to observe Mr. Byrum's feeble efforts to change the meanings of the Bible, and then behold his ridiculous retreat behind the fact that the one who had shown him up so successfully had given a fictitious name. Does Mr. Byrum really expect this to hide his inability to answer my arguments. He asks me not to act the coward. I exhort him to do the same. Have the courage and manhood to confess that you are brought to a standstill, and the world will have more respect for you than they will if you persist in hiding the truth under such a false covering as the fact that I did not give my real name. You are wrong, and you know it; then have the good sense to acknowledge it.

And then Mr. Byrum wants me to have more cheek. I admit that I do not come up to that gentleman's standard in that respect, taking him as an exemplification of his own standard. No doubt he would forgive this, but when I record the fact that I have no desire to imitate him in regard to cheek, he will be filled with indignation that such a benighted being as myself should be allowed to live. But I refuse to strive to reach Mr. B.'s standard of cheek.

Now, my dear Mr. B., let me give you a good piece of friendly advice. Stick to talking, and let writing alone. You have the gift of gab in a remarkable degree, in fact you are inexhaustible along that line, but you are a complete failure as a writer. You have made very ridiculous exhibitions of yourself in the News and as a friend I entreat you to desist, or you will go down to the grave with the awful crime of making people laugh themselves to death.

### \$100 Reward; \$100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists 75c. Hall's Family Pills are the best.

## HEAVY GRAPE CROP:

In Northern Ohio the Vines Are Black and the Price Goes to Almost Nothing.

Cleveland, O., Sept. 6.—The grape growers of Northern Ohio are afflicted with a big crop. The vines are black with fruit, which is selling at 5 cents a basket of ten pounds in the vineyard. There is no profit in such a price, for the basket costs 2½ cents and the picking as much more. It is said that no more grapes will be sent to market, but that the remainder of the crop will be sold to wine-makers. This year's crop is the heaviest ever known in this section of the country.

### "Still a Dying."

Bryan spoke to ten acres of people at Columbus, O., Tuesday night. A conservative estimate placed the number at 50,000. He divided his speech into four segments and addressed the crowd from four different points so that all could hear him. The free silver craze is 'still a dyin'.'

### The Difference.

"There is no more striking difference between the negroes of the North and South than in the matter of their labor," says a Boston negro editor. "Here the negro carries the hod, in the South he lays the brick and mortar; here he shovels out the cellar there he frames the dwelling; here he whitewashes the fences, there he paints the houses; here he cleans the stable, there he shoes the horses; here he is a common laborer, there he is an artisan. This wide difference in the character of the labor of the negro North and South is meaningful.

### A Great Chance to Make Money.

I want to tell you of my wonderful success. Being a poor girl and needing money badly, I tried the Dishwasher business and have cleared \$200 every month. It is more money than I ever had before and I can't help telling you about it, for I believe any person can do as well as I have if they will only try. Dishwashers sell on sight; every lady wants one. The Mound City Dish Washer Co., St. Louis, Mo., will give you all necessary instructions, so you can begin work at once. The Dishwasher does splendid work; you can wash and dry the dishes in two or three minutes without putting your hands in the water at all. Try this business and let us know how you succeed.

### A Dandy Thing to Sell.

I have been doing so well this summer selling combination dippers that I think it is my duty to tell others about it. I have not made as much money as some I read about, but I never make less than \$3 and often \$5 a day; the dipper can be used as a fruit jar filler, a plain dipper; a fine strainer; a funnel; a strainer funnel; a sick room warming pan, and a pint measure. These eight different uses makes the dipper such a necessary article that it sells at nearly every house, as it is so cheap. You can get a sample by sending, as I did, 18 two-cent stamps to pay postage, etc., to W. H. Baird & Co., Station A, Pittsburg, Pa., and they will mail you a dipper, and you can go right to work. Any one can make \$3 or \$4 a day anywhere.
